

Corn Disease Management

Presented by:

Tamra Jackson, UNL Extension Plant Pathologist

Thursday, Febr. 7 * 10:00 a.m. – 1:00 p.m.

Registration begins at 9:30

At the Saunders County Extension Office located at the UNL Agricultural Research & Development Center August. N. Christenson Research & Education Building

The workshop is aimed at producers and will focus on disease management issues for corn, including a review of diseases that have occurred in '07 plus those projected to be a problem in '08. Plus, the anticipation and recognition (diagnosis) of diseases, as well as their management and prevention will also be covered.

- * Diseases: Why so many (again) in 2007?
- * What can we expect in 2008?
- * Changes in disease management strategies:
- * What do all those fungicide results really mean?
- * *Complimentary noon lunch*

PRE-REGISTRATION REQUESTED:

- There is no fee for this workshop, but advance registration is requested. Please pre-register by February 5.
