NEBRASKA Soybean Day and Machinery Expo
Thursday, Dec. 15 * 8:30 a.m. - 2:15 p.m.

with a break scheduled at 9:45 a.m.
to view equipment and visit with exhibitors

Saunders County Fairgrounds –
Wahoo, NE

8:30 a.m. View Commercial Exhibits
9:00 a.m. Opening Comments
Keith Glewen, Nebraska Extension Educator
Large Equipment, Tires and Compaction
Roger Hoy, Director of the Nebraska Tractor Test Laboratory
9:45 a.m. Break - View Commercial Exhibits
10:15 a.m. Nebraska Soybean Checkoff Update
and Association Information
Soybean Board and Soybean Association
12:00 Noon Lunch
Management of Sudden Death Syndrome (SDS)
Loren Giesler, Nebraska Extension Plant Pathologist
2017 Soybean and Corn Marketing and Cash Flow
Cory Walters, University of Nebraska Assistant Professor:
Grain and Oilseed Economist
2:15 p.m. Adjourn

Local Food Drive
Bring a can or 2 and help out...
The Saunders County Soybean Growers Organization requests that each participant donate one or more cans of nonperishable food to the food pantry.

This event is brought to you compliments of

Saunders County Soybean Growers Organization and private industry representatives

For more information, call Keith Glewen at 800-529-8030 or e-mail at kglewen1@unl.edu. http://ardc.unl.edu/nebraskasoyexpo

How do you control herbicide resistant marestail, Palmer amaranth, & waterhemp? Come hear the featured speaker - Jason Norsworthy who is nationally known for his research and expertise in resistant weed management.

Resistant Weed Management
The current status of herbicide resistance in the U.S. will be discussed with specific detail given to the extent of the problem in Nebraska cropping systems. Reasons for the development of herbicide resistance will be outlined along with strategies that growers can implement to maximize weed control and protect against the further loss of herbicides to resistance.

Large Equipment, Tires and Compaction
Learn about the differences in tractive and fuel efficiencies between tires and tracks at the Nebraska Tractor Test Lab. Hear about a field study comparing tires and tracks in a field setting with some information on the differences in soil compaction.

Management of Sudden Death Syndrome (SDS)
Overview of what SDS is and what drives it’s development. Management of this disease can be difficult and several approaches need to be taken. An overview of on-farm trials to manage SDS in Nebraska will be presented as well as other studies that have focused on SDS management in the region.

2017 Soybean & Corn Marketing and Cash Flow
This presentation will focus on the use of seasonal commodity charts, cash flow, profitability, crop insurance and hedging for marketing 2017 crop. The relation between each of these elements will also be examined.

Soy doughnuts will be cooked on site. And the PANCAKE MAN will serve pancakes and sausage for lunch!

Bring a Friend and Bring Your Appetite!
